**RESEARCH REQUEST: PERSONAL USE ONLY**

HSM volunteers are happy to research people, buildings, communities and events in the Greater Middletown area using materials in our archives, online resources and municipal sources (ie: vital records, deeds etc.). The first two hours of research is \$25; we request a donation of \$20 per hour for time spent after that. Research results will be provided in written form. Related digital images or photocopies of materials in our archives will be charged separately. We do not provide photographic prints. All information resulting from research will be added to HSM's local history files. *We do not produce family genealogies; please consult a professional genealogist for this service.*
